

PUBLIC ANNOUNCEMENT FIRST PUBLIC CONSULTATION MEETING

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA) New Desivojcë Multipurpose Dam Project

DATE Thursday, 30 July 2026	TIME 18:00–20:00
VENUE Community Centre “Village Oda” Shipashnicë e Epërme, Kosovo	PARTICIPATION In person and online

The Ministry of Environment and Spatial Planning, through the FLOWS Project, invites local residents, potentially affected persons, public institutions, civil society organisations, experts, and all other interested parties to attend the first public consultation meeting for the proposed New Desivojcë Multipurpose Dam Project.

The proposed dam is intended to support a more reliable water supply for households and agriculture, strengthen irrigation capacity, and improve resilience to seasonal flooding. The Project Design and the ESIA are currently under preparation in accordance with applicable Kosovo legislation and the World Bank Environmental and Social Framework.

The meeting provides an opportunity to share local knowledge, identify potential environmental and social impacts and risks, and discuss appropriate measures to avoid, minimize, mitigate, or address them. Feedback received during the consultation will be documented and considered as part of the ongoing ESIA process.

PURPOSE OF THE MEETING

- Present the project objectives and the design progress.
- Explain the ESIA process and upcoming stakeholder engagement activities.
- Receive questions, concerns, suggestions, and local knowledge to inform the assessment and project development.

INCLUSIVE PARTICIPATION: The meeting is open to everyone. Participation by women, young people, older persons, persons with disabilities, members of non-majority communities, landowners and land users, NGOs, and other potentially affected or interested persons is strongly encouraged. Simultaneous interpretation in Albanian, Serbian, and English will be available.

JOIN ONLINE

Unable to attend in person? Join the meeting through Zoom using the link below or by scanning the QR code.
